## EXPERIENCE

### NVEST SOLUTION

Thane, Mumbai

#### Frontend Developer (WFH)

May-2021 to Present

- Developed the Front-End User Interface for Insurance Products using **JavaScript, ES6, React and Redux**
- Achieved Effective Navigation across pages using **React-Router-Dom** which increased the smooth transition among web pages and reduced load time
- Increased the efficiency of the app is using **useCallback and useMemo hooks** by 20% provided better user experience
- Managed the state globally using **Redux store** and shared across the required independent components which overcome the hassle of managing state
- Implemented **Redux-Thunk** for Asynchronous API calls, to avoid directly causing side effects in actions, action creators, or components.
- Collaborated with web designers, back-end developers, and UX designers to design, build, test, and improve web products
- Designed and developed landing pages and assets also guided designers with the best practices for designing a responsive website and email assets
- Enhanced the debugging skills and helped workmates in debugging code and learned to use **Chrome Dev Tool**
- Acknowledged as a team for signing off the product by properly testing and delivering to the client **15 days before the deadline**
- Attended calls with clients and coordinated with business partner towards a successful launch of 3 Insurance Plan
- Got hike of **50%** in salary due to strong performance and organizational impact in 1 year

## EDUCATION

- Graduated in Chemical Engineering with a CGPA of 7.82 from the **Indian Institute of Technology Patna (IIT PATNA)** in May 2021.
- Procured All India Percentile of **95% in JEE-Main 2017** among 1.2 million aspirants.
- Have **Merit Certificate** for procuring **10 CGPA** in CLASS X.
- Appreciation Letter** from the former Minister of Human Resource and Development **Mrs. SMRITI ZUBI IRANI** for performing exceptionally well in the Central Board of Secondary Education of CLASS X.

## MY PROJECTS

### Food-Ordering-Website (Dummy Site) | Github-Link | Live-Link

- Built a Single Page **Responsive Food Ordering Website** using **React.js MongoDB ALTAS and NodeJS**
- Constructed **Restful APIs** for fetching data using NodeJS and added **Dummy Razorpay** payment gateway

### Small Projects using ReactJS | Github-Link

- Designed 6 small React Projects like weather application, expense tracer, color generator, etc which helped to hold strong grip on React concepts
- Fetches the required data in the projects using dummy API, which is further structured to use in the project
